

Land cover elevation change 2003-2016: Newcastle

This map shows the elevation change in Digital Surface Models generated in 2003 and 2016. Areas in green indicate positive change and areas in orange and red indicate negative change.

The elevation changes shown on this map show where houses were built throughout Newcastle, but especially in the southeast and far west. The map also shows where vegetation was removed in northern Newcastle for future mixed-use development.
